

VISTA-15P

VISTA® Control Panel

The VISTA family of products is among the most widely recognized and reliable brands in the industry with the largest security system install base in the world.

The versatile VISTA-15P offers optional alarm signals, upload/download capability, and remote services via IP or LTE communications, improving the speed at which information can be delivered to and from the control panel. This maximizes system longevity, reduces service calls and future upgrade costs. The VISTA-15P has the broadest array of residential hardwired or wireless sensor zone options that protect life and property, creates awareness and convenience with environmental options like thermostat, water shut-off and lighting control, as well as advanced functions like audio control via Denon. VISTA also offers fixed-English, custom Alpha or touchscreen keypad displays, two-wire smokes detectors, connected home support through Tuxedo Touch® with the ability to customize system actions, and events using scene control.
